

## MOVING RAILS

The rail system of magnetic aluminium profiles, Moving Rails allows for the attachment of the mobile Moving Panel and Moving Acoustic Panel to the wall. With the help of the Moving Rails, the writeable presentation surfaces in both sizes as well as the acoustic panel can be used and combined on a large-scale and temporarily on the wall. The Moving Rails are available in three sizes respectively.

Designer: Jörg Boner.  
Made in Switzerland.

### DESCRIPTION

Magnetic rail system

#### S1 Moving Rail

#### S2 Moving Rail

#### S3 Moving Rail

#### M1 Moving Rail
